SUMMARY

Solution-driven developer who is passionate about web development and learning. Interested in devising better solutions for challenging tasks, and becoming an essential part of a team that has a forward-thinking mindset and encourages continual improvement.

SKILLS

Typescript, Javascript, HTML5, CSS3/SCSS, React, Redux, Express, Git, Github, Node, MongoDB, Postman, Java

PROJECTS

Goal Setter   View Project
React | Redux | Express | MongoDB | Node |REST API
- Created a REST endpoint for this full-stack application utilizing Express and Node to implement CRUD functionality
- Utilized MongoDB to construct a database to save user goals and information while establishing user authentication with JSON web tokens to only allow authenticated/logged in users to make changes to their data
- Developed front-end of web app with React and Redux for state management and reusable components

Super Team   View Project
React | Typescript | HTML | CSS | 3rd Party APIs
- Formulated the logic for all functions responsible for making multiple API calls and feeding the responses back to the user as well as handling all error catching
- Integrated randomize and build team components with a modern UI display for an interactive user experience that aligns with good UX design
- Engineered entire web app whilst executing the best Typescript practices to avoid all potential errors

What To Make   View Project
React | Redux | Redux Toolkit | HTML | CSS | 3rd Party APIs
- Championed the development, design, and deployment of this React/Redux web application along with Redux Toolkit
- Executed component layout structure in a simplistic manner to make code base team-friendly
- Created multiple state features to handle all JSX conditional rendering so as to provide responses to all situations regarding data retrievement

Dad Joke Tier List   View Project
Javascript | HTML | CSS | 3rd Party APIs
- Developed website from start to finish to showcase fundamental understanding of HTML, CSS, and Javascript by avoiding the usage of outside frameworks/libraries.
- Created various features such as a joke generator and a "Create Your Own Joke" form to give the web app a lively UI/UX design.
- Applied multiple interactive animations to keep user's attention and to stay on brand with entire web app

EDUCATION
- **Reseda Charter High School** |High School Diploma
